## Discover Chelmsford's journey from market town to modern city

Welcome to Walk the World! This walk in Chelmsford is one of 20 in different parts of the UK.

Each walk explores how the 206 participating nations in the London 2012 Olympic and Paralympic Games have been part of the UK's history for many centuries.

Along the routes you will discover evidence of how different countries have shaped our towns and cities.

In March 2012 Chelmsford became one of Britain's newest cities but there has been a major settlement here for two millennia. The county town of Essex has been the site of a Roman trading post, medieval market and Victorian industrial centre. This walk around modern Chelmsford explores how the city has reinvented itself several times and adapted to changing circumstances.

Chelmsford's progress has been influenced by many countries around the world. Look out for a Roman road and a bridge that spans Europe. Hear tales of a scandalous German queen and an American pioneer. Visit the 'home of radio', a former ball bearing factory and England's second-smallest cathedral.

This walk was created by a local school pupil, Ollie Barnard, from King Edward VI Grammar School for the Royal Geographical Society's *Young Geographer of the Year* competition in 2012.
