Explore the garden village of Port Sunlight on the Wirral

In the late-nineteenth century William Lever led the world's most famous soap company. Lever was a successful businessman but unlike most other entrepreneurs he believed in sharing his profits.

Lever was determined that his workers should have a decent place to live and opportunities to better themselves. To do this he employed leading architects and craftsmen to design and build a beautiful new village.

The workers paid a fair rent for their homes. They had access to education, healthcare and social facilities. When they retired they received a pension. All this was ground-breaking for its time.
